YOUR MESSAGE	

Why Now?

- In 2012, the Parks and Recreation Commission gathered information from Malibu residents and stakeholders in the community on opinions on parks, facilities and program needs.
- As a lot of things may have changed since the last survey that was done over a decade ago, the City has developed an innovative outreach program designed to engage a diverse cross-section of the community.

Overall Timeline

- **November 2016:** “Trancas” lot was acquired by the City.
- **April 2018:** “Heathercliff”, “Chili Cook-Off” and “Triangle” lots were acquired by the City.
- **November 2018:** Woolsey Fire swept through Malibu.
- **February 2020:** “La Paz” lot dedicated to the City.
- **March 2020:** COVID-19 Pandemic

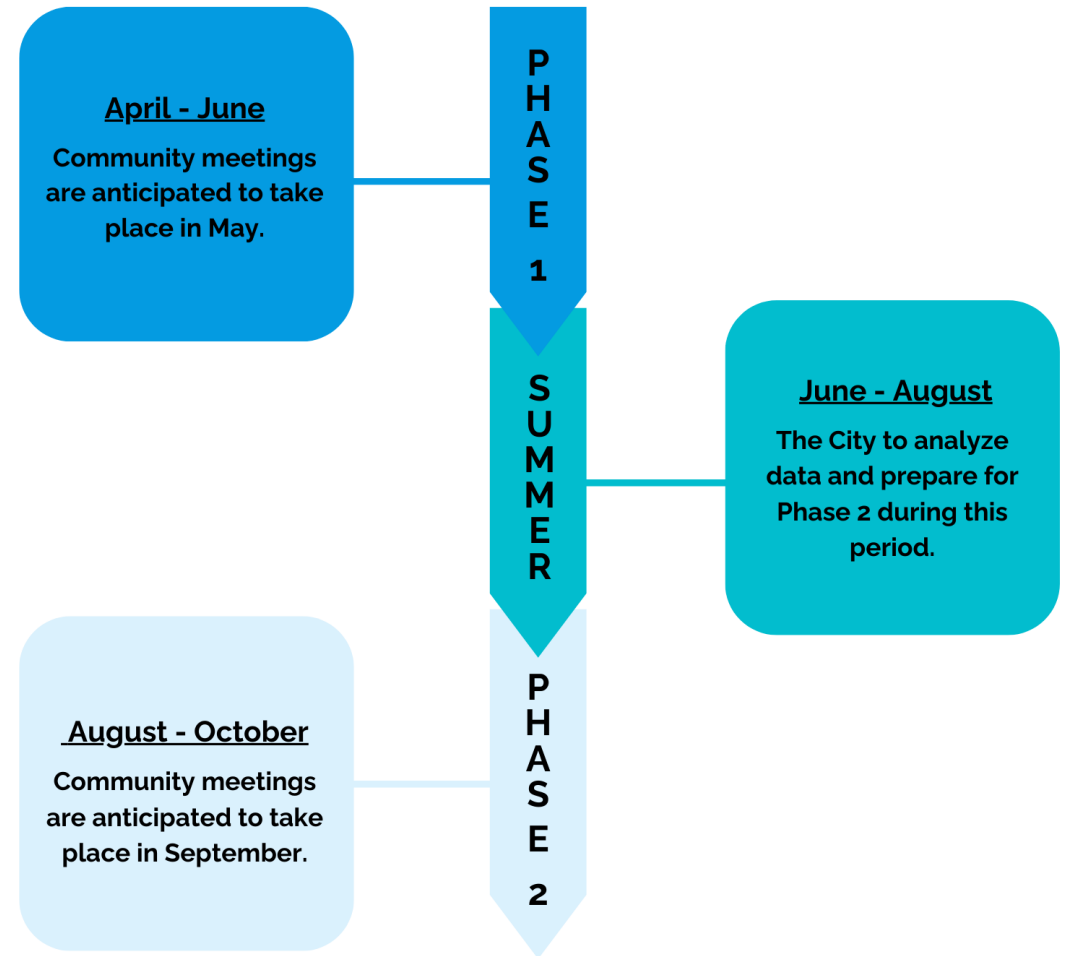

Outreach Program Goals

The goal of this initiative is to facilitate meaningful dialogue among community members to ensure the future use of these lands aligns with the long-term needs and aspirations of the entire Malibu community.

Project Timeline

- We are currently in Phase 1 to collect initial feedback on the types of uses the community prefers
- In Phase 2, we will be looking for more narrow feedback and specifics for each community land

Next Steps

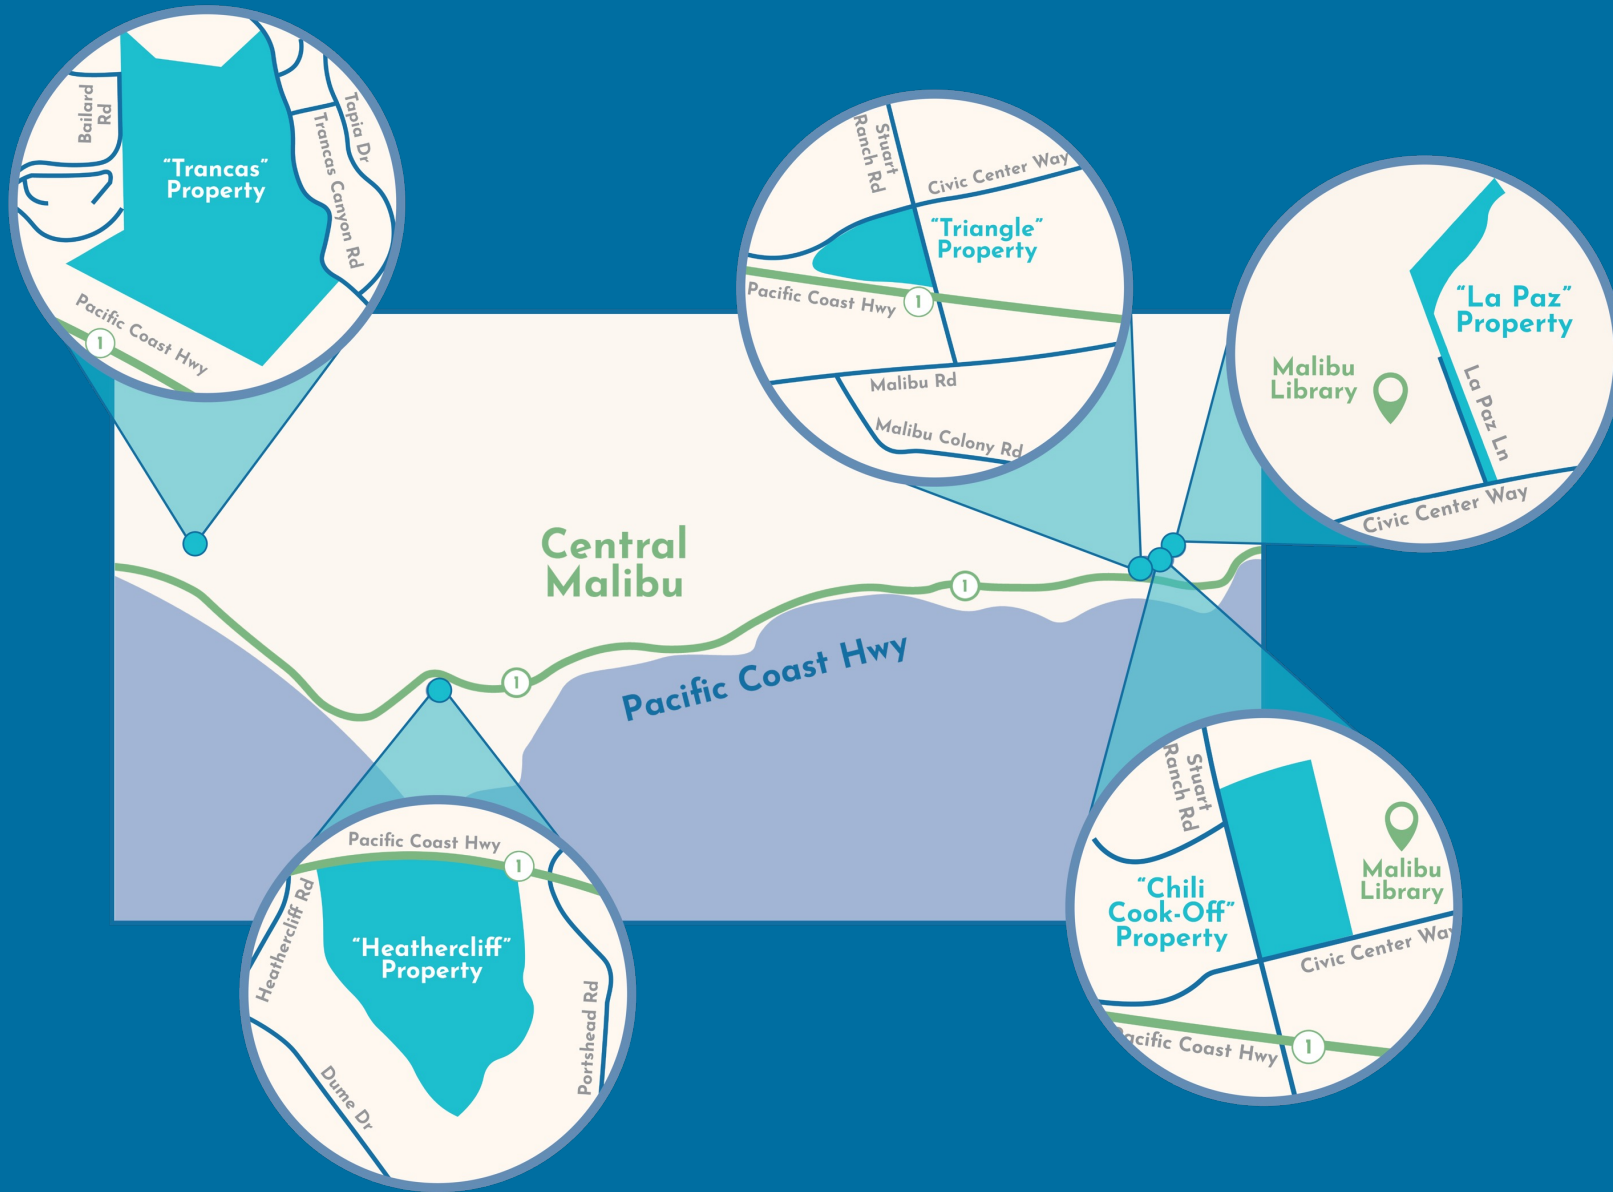

- After Phase 2 is complete, the City and Council will assess the best uses for these five parcels of land.
- Once decided, the City will have to get approval from the City and California Coastal Commission.
 - A complete application can take anywhere up to 6 to 11 months.
 - If appealed, the process can be delayed up to another 6 months.

Tonight's Goals

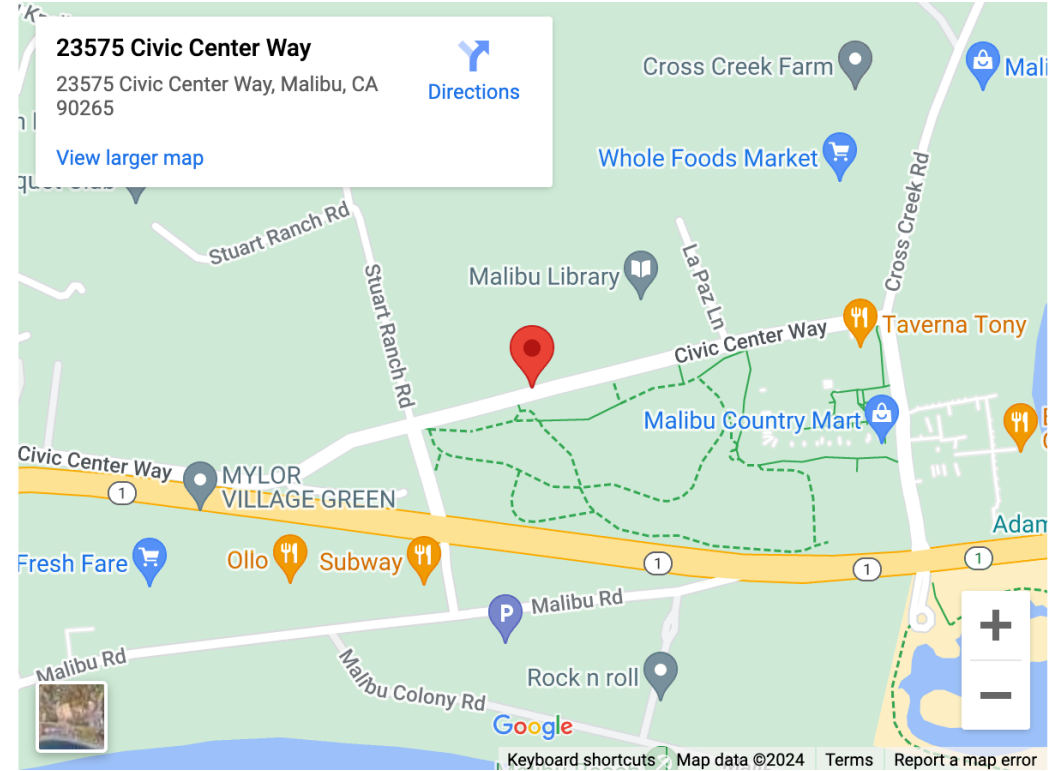

- Collect your feedback on the types of uses you would like to see for these community lands
 - Phase 1 will collect your **general feedback** on the types of uses you want to see in Malibu
 - Phase 2 will build on Phase 1 and collect your feedback on what you want to see for each land
- Answer any questions you may have

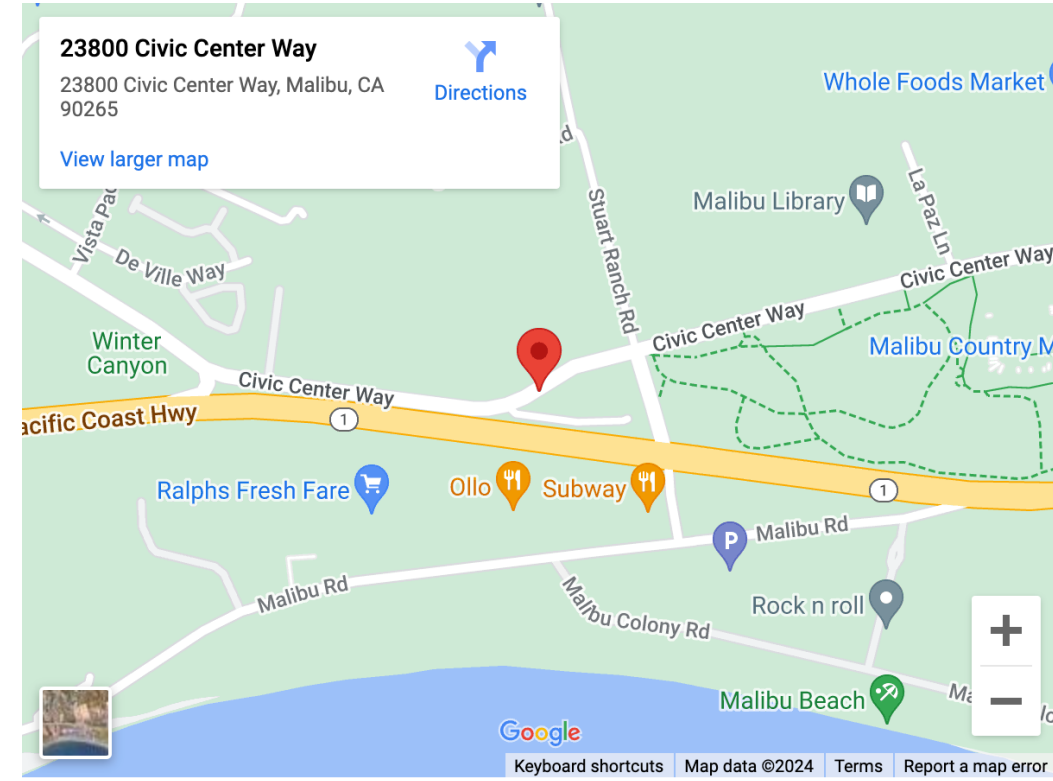

Where are the community lands located?

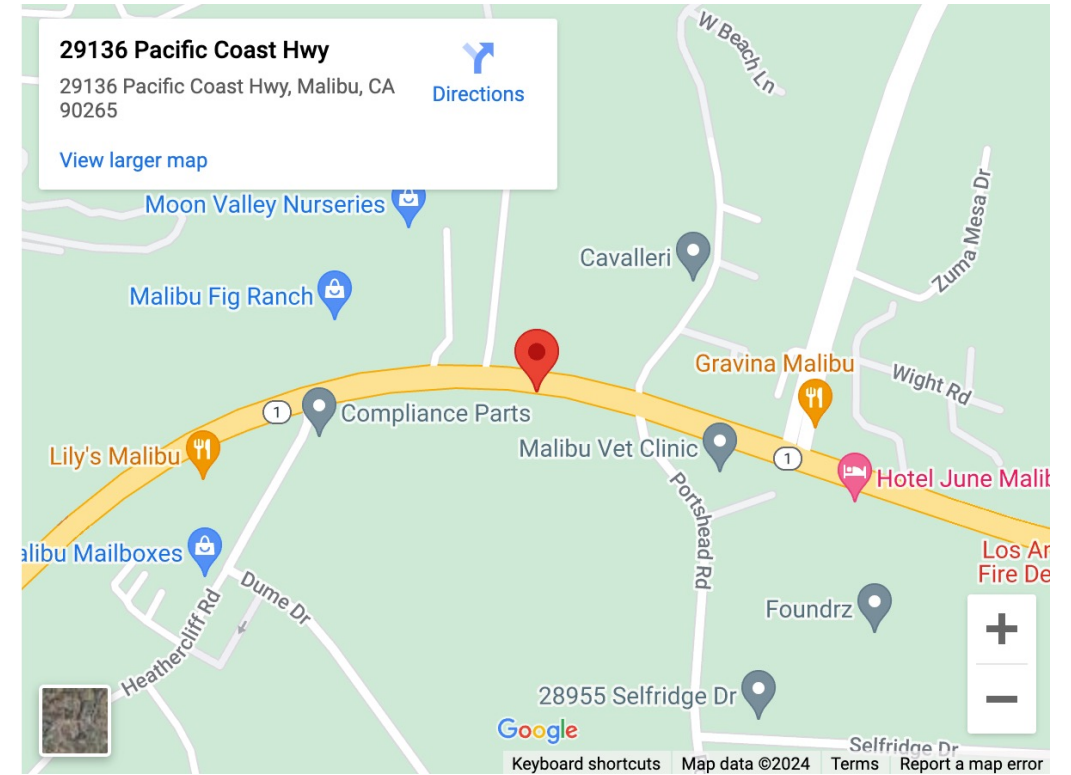

“Chili Cook-Off”

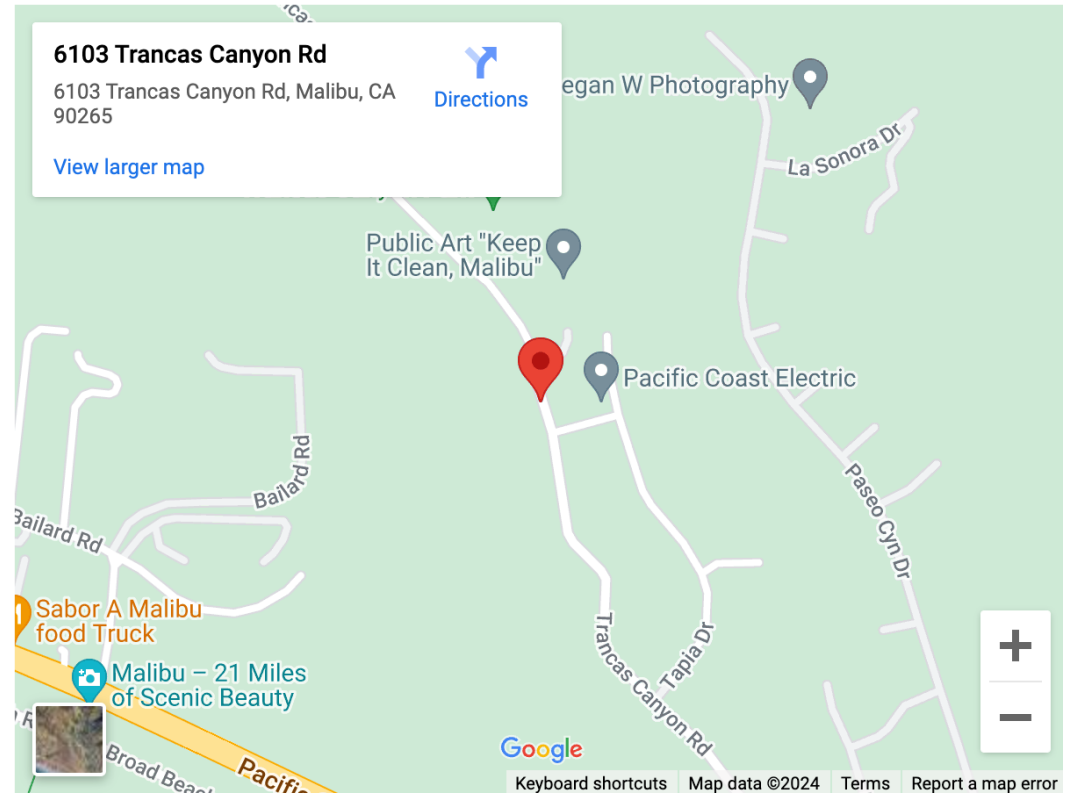

“Triangle”

“Heathercliff”

“Trancas”

“La Paz”

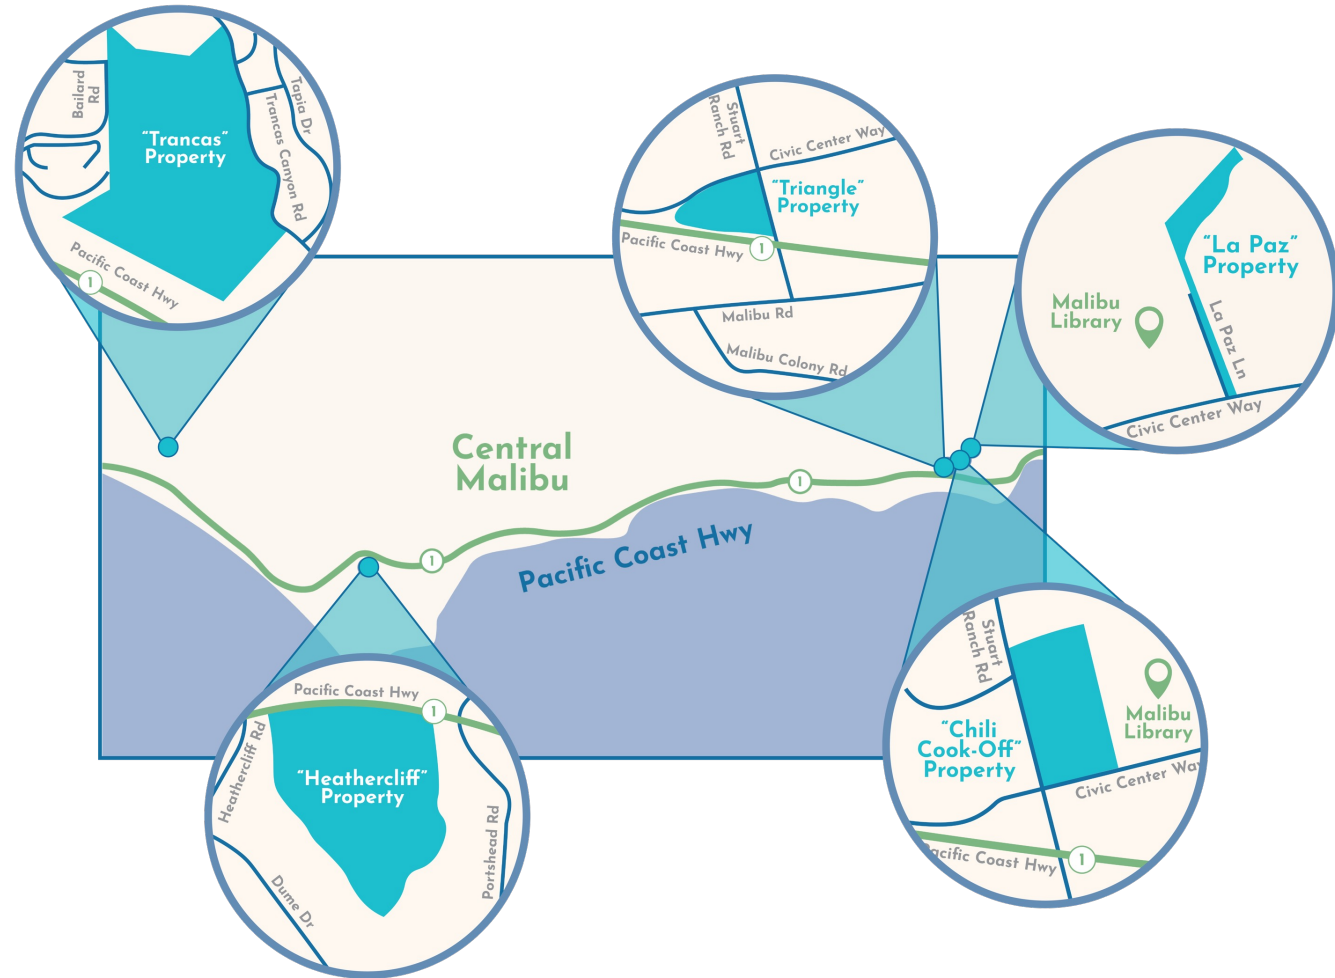

Breakout Groups

Zoom attendees will be their own break out group.
Please use the raised hand feature to participate.

Breakout Group Discussions

- What do you envision for these lands? (Reminder: We **are not** discussing the design and development of these lands at this time)
- What kinds of uses can the entire Malibu community benefit from?

Q&A session to come!

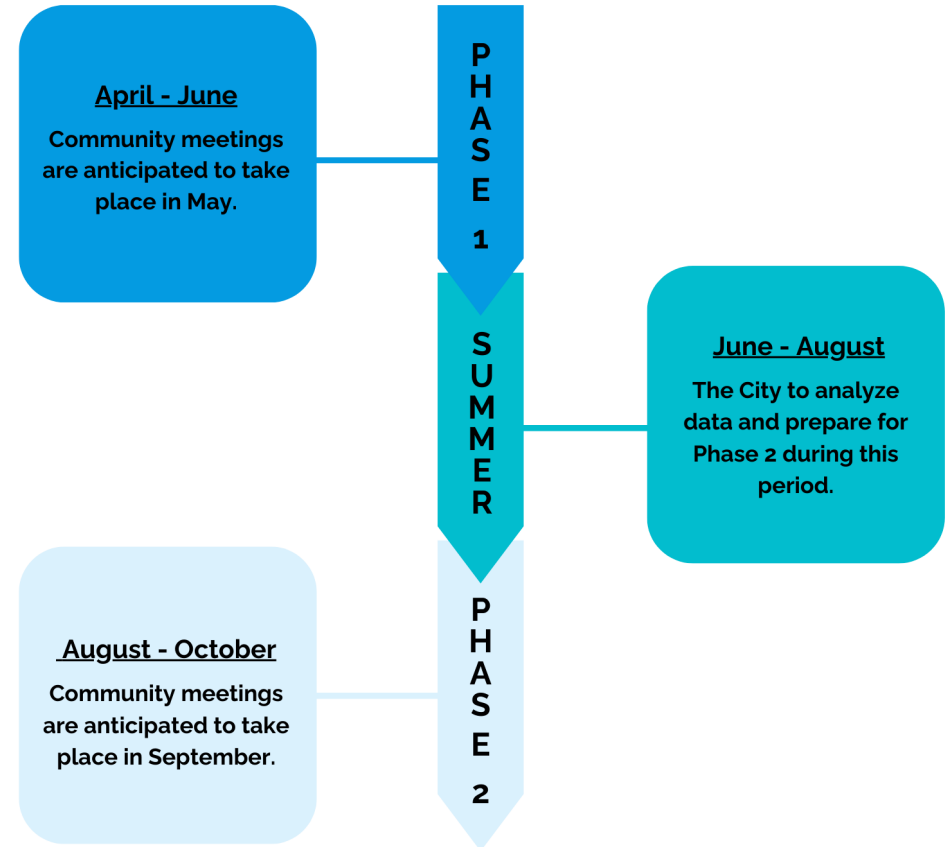

Group Discussion and Q&A

Zoom attendees: Please submit written questions
via Q&A feature.

Project Timeline

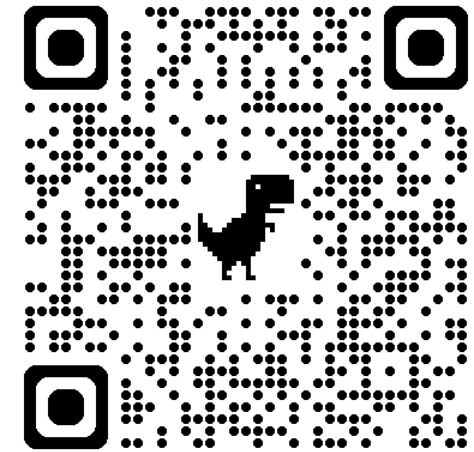

- We are currently in Phase 1 to collect initial feedback on the types of uses the community prefers
- In Phase 2, we will be looking for more narrow feedback and specifics for each community land

Upcoming Meetings & Pop-Up Events

	Location	Date	Time
Pop-Up Event #3	Malibu Community Center	Saturday, June 8	9 - 11:30 a.m.
Community Meeting #3	Location TBD	Thursday, June 13	10 a.m.

Stay Involved

Background

The City of Malibu currently owns five parcels of vacant land spanning just over 61 acres. To ensure the future of these community lands aligns with the community's priorities, the City of Malibu is launching a robust outreach and engagement program to collect your feedback.

Throughout this process, the City's primary goal is to gather extensive input on what types of public facilities the community prefers for these five spaces. Your feedback will help ensure the future facilities address long-term needs and aspirations of the entire Malibu community.
