As stated by a local news outlet this center and the potential increase in traffic presents a danger to the community as local support for arts has been show time and again to be insignificant for maintained activities. I hope the council takes this into consideration.

Hi There

I am very interested leading a ceramic department in the multigenerational community center.

I envision this for all generations.

I think that coming together to work with mud/earth/clay is an opportunity to connect with the community of all ages, not to mention the many other benefits.

I have a long background in the arts.

I would like to be added to the mailing list for upcoming meetings.

Sincerely

Your survey requires one pick from your choices. I do not want a performing arts center.
